INGREDIENTS

1 (3 oz) packet Jello - Any flavor works! Cherry, blue raspberry, watermelon, etc.
1 cup boiling water
1 cup cold water
1 cup vodka - For a stronger shot, swap half the cold water with more vodka
Pop Rocks candy - Several packets (use just before serving)

DIRECTIONS

1. Dissolve the Jello: In a mixing bowl, add the Jello powder. Pour in 1 cup of boiling water and whisk until fully dissolved.
2. Add the Booze: Stir in 1 cup cold water and 1 cup vodka. Mix well.
3. Pour and Chill: Carefully pour the mixture into small shot cups (2 oz size works great). Refrigerate for at least 3-4 hours, or until fully set.
4. POP Before You Serve: Just before serving, sprinkle Pop Rocks on top of each shot. Important: Don't add Pop Rocks early-they'll melt and lose the fizz.
