INGREDIENTS

2 tbsp peach nectar or peach-flavored syrup

$\frac{1}{2}$ cup lemonade

$\frac{1}{2}$ cup Sprite or any lemon-lime soda

A splash of grenadine

Ice

Peach slice for garnish

Optional: Pink sugar for rimming the glass

Directions:

1. Fancy Up the Rim:

If you're feeling extra, dip your glass rim in lemon juice and then into pink sugar for a pretty, sweet finish.

2. Build the Drink:

Fill the glass with ice.

Pour in the peach nectar first.

Add the lemonade, followed by a slow pour of Sprite to preserve the bubbles.

3. Add a Pop of Color:

Drizzle grenadine gently down the inside of the glass-it will sink and swirl for a sunset effect.

4. Garnish and Serve:

Add a peach slice and pop in a straw.

Serve immediately and sip the summer away!

Tips for Success:

For a stronger peach flavor, increase the nectar or add a slice of fresh peach inside the drink.

Want it boozy? Add a shot of peach schnapps or white rum for an adult version.

Frozen version: Blend it all with ice for a slushy-style treat.

Serving Suggestions and Pairings:

Jolly Rancher Edible Shot Glasses - perfect for fun mocktail nights

Unicorn Poke Cake - vibrant and magical

Unicorn Poop Bark - sweet and silly

Blueberry Lemonade - for a lemony drink bar combo

Rainbow Sangria - a perfect pairing for summer spreads

Make-Ahead and Storage:

Make-ahead: Mix the peach nectar and lemonade ahead of time and store in the fridge. Add soda and grenadine right before serving.

Don't store after adding soda-the fizz fades fast, so always mix fresh for best bubbles.
