3. Serve and Enjoy!:

Pro Tips for the Best Cherry Rum & Coke Slushie:

Use Frozen Coke Cubes - For an extra-frosty drink, pour Coca-Cola into ice cube trays and freeze before blending. This keeps the slushie cold longer and prevents dilution.

Adjust the Alcohol Level - Want it stronger? Add an extra splash of rum. Prefer a lighter drink? Reduce the rum and add more Coke.

Try Different Rums - Dark rum will add a deeper, caramel-like flavor, while light rum keeps it crisp and smooth.

Non-Alcoholic Version - Skip the rum and cherry liqueur, and use cherry syrup instead for a

family-friendly frozen treat.

Make It Extra Boozy - Drizzle a little extra cherry liqueur or rum on top before serving for an extra kick.

What to Serve with This Cocktail:

Grilled Burgers & Hot Dogs - The smoky flavors contrast perfectly with the sweet cherry and rum.

Loaded Nachos - The bold, cheesy flavors go great with the fizzy, boozy slushie.

BBQ Ribs - Sweet and sticky ribs plus a cherry-infused Coke cocktail? A match made in heaven.

Tropical Fruit Platters - Mango, pineapple, and cherries complement the drink's fruity notes.
