INGREDIENTS

2 cups crushed ice
1 1/2 cups Cherry Coke (regular or zero sugar, your choice)
1/2 cup Jack Daniel's Tennessee Whiskey
Optional: maraschino cherries and lime wedges for garnish

DIRECTIONS

1. Start with : Icel fill the blender with crushed ice - the finer the better, since it makes the drink smoother and slushier.
2. Add the : Good StuffNext, I pour in the Cherry Coke and Jack Daniel's. I use 1/2 cup of Jack for two drinks, but you can absolutely adjust that based on how strong you like it.
3. Blend : Until SmoothI blend everything together until the mixture is smooth and slushie-like. If it's too thin, I toss in a little more ice. Too thick? A splash more soda does the trick.
4. Serve and : GarnishI pour the slushie into glasses and garnish with a maraschino cherry or two. A slice of lime or a straw gives it that extra fun, bar-style touch.
